

Dear MSCA NCP,

We are happy to inform you that we are organising an **online information event on the Marie Skłodowska-Curie Actions under Horizon Europe**.

The event will be webstreamed live (no registration required) on 23 March 2021 (9:00 to 12:30 CET, Brussels time) and will be held in English.

This event aims to **present the MSCA programme under Horizon Europe and to encourage organisations and researchers to apply**. As you know, the MSCA will be simplified to make it easier to understand, implement and to apply for funding. Participants will learn about the changes to the programme and hear from beneficiaries, project managers and fellows about their experiences.

The information session is open to researchers, higher education institutions, research institutes, research funding agencies and any other organisations currently involved in the MSCA or interested in applying to future funding calls for the first time. Private sector organisations and other socio-economic actors are also encouraged to use the event to become acquainted with the opportunities the MSCA provide for intersectoral cooperation.

You can find all the information about the event here:

https://ec.europa.eu/research/mariecurieactions/events/msca-under-horizon-europe-information-event_en

We invite you to share the information among your networks and to share our posts on [Facebook](#) and [Twitter](#).

Attached you will also find a couple of visuals you can use for your own promotion on social media.

All the best,
